Dear Marianne,
Thanks for getting in touch.
I will forward you some documents we got recently from the UK Government using a Freedom of Information.
They include the industry (EuropaBio) strategy for the negotiations and show how closely the UK Government is co-operating with them.
Monday is a holiday here, but I will check my email in the morning and you can also reach me on my mobile or we can maybe fix up a time to talk.
Best regards,
Helen
